**Subject:** NMED - Soil Screening Levels

Hi Phil and Jon,

This is starting to stray far from my WQS programmatic knowledge, but I found something that I

think will be very useful to your efforts.

Table A-1 of the attached document provides the State of New Mexico's Soil Screening Levels (SSLs), as developed by the New Mexico Environment Department (NMED) Hazardous Waste Bureau (HWB) and the Ground Water Quality Bureau Voluntary Remediation Program for chemicals most commonly associated with environmental releases within the state. Table A-1 starts on page 107 of the .pdf file. Here is the NMED website where I obtained this document: <https://www.env.nm.gov/gwb/NMED-GWQB-Regulations.htm>

Thanks,

Melinda
